

## ASX Release

23 July 2013

### Unlisted Options expiry

Global Resources Corporation Limited (Global or the Company) has 1,866,493 listed options on issue which are due to **expire on 22 August 2013**. The exercise price of these options is **\$0.60 each**.

Given the high exercise price compared to the significantly lower share price of \$0.05 currently, the Company applied to the ASX for a waiver from Listing Rule 6.24 to the extent necessary to permit the Company not to send the notice required by paragraph 6.1 of Appendix 6A. The ASX has granted the waiver on the condition of this announcement being made. In the event the share price does improve, to exceed \$0.45 cents prior to the option expiry date, the Company has agreed to comply with the ASX Listing Rules noted.
